MICHAEL: The Catalogue of the European Digital Libraries

Chairman: Anna Maria Tammaro

THE WORKSHOP WILL BE IN ITALIAN LANGUAGE

The Workshop is organised by the MICHAEL and MichaelPLUS (Multilingual Inventory of Cultural Heritage in Europe – <http://www.michael-culture.org>) projects, coordinated by the Italian Ministry for Cultural Heritage and Activities (MiBAC) within the framework of the eTEN Programme. The Institute of Cultural Heritage of the Emilia-Romagna Region (IBACN) is also a member of the partnership. The other partners countries are the Czech Republic, Finland, France, Germany, Greece, Hungary, Malta, the Netherlands, Poland, Portugal, Spain, Sweden and the United Kingdom.

MICHAEL focuses on the integration of national initiatives in the digital cultural heritage sector. It is implementing an online service based on information about digital cultural collections, which will facilitate the exploitation of European cultural content resources by researchers, students, tourists, generic citizens.

The online service will allow its users to search, browse and examine multiple national cultural portals from a single point of access, using their native language. The overall system is actively supported and endorsed by the national governments and agencies responsible for cultural heritage. Together with the TEL project (The European Library) is considered to be one of the two main pillars on which the future European Digital Library will be built.
