This volume is published in the frame of the MINERVA eC project. Each report was written by the members of the National Representatives Group (NRG) as it was established in Brussels in 2001. On 22nd March 2007 the European Commission adopted the *Decision setting up the Member States' Expert Group on Digitisation and Digital Preservation*, whose goal is to take forward the coordination work of the NRG within the Community's institutional framework.
